

FCC Commissioners  
The Federal Communications Commission RE: Docket 04-435  
445 12th Street, SW  
Washington, DC 20554

Dear FCC Commissioners ,

I am writing to voice my concerns about the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

There is no hard evidence that cell phone use doesn't interfere with navigational instruments.  
Please leave the current rules in effect. Even though there is no hard evidence I do believe, cell phones interfere not just with the navigational instruments but signal communications between the air traffic controllers and the communicating pilot.

Sincerely,

Renee Pollard
